Communication, Organisational,  
Managerial and other skills

My mind is open to social and multicultural relationships and collaborations; during my professional life, contact with multicultural realities has helped to further develop my interpersonal skills.

I have been operating profitably both in corporate and business roles. I have acquired a long experience in computer and telecommunications, in designing and implementing solutions for the integration of heterogeneous networks of distributed services and the development of Internet of Things, in the design of wireless geographic networks of telemetry, telemisura and data transmission, design of electronic apparatus for the control and management of analogue quantities and digital systems, radio transmission and reception apparatus, particularly in the low microwave range.

Experimental Radioamateur with International callsign "IZ8EDE", attributed by the Italian Ministry of Economic Development - Department of Communications.

I'm President of the Regional Committee of Italian Radio Amateur Association and a reference for the Civil Protection Office of the Regione Basilicata for emergency radio communications in the event of natural disasters.
